

Elenco Sal Acid

**A strong solution to control Salmonella, E. Coli
Campylobacter and other types of pathogenic
bacteria, enhancing gut health, nutrients
absorption and the dietary electrolyte
balance (dEB)**

Why use Elenco Sal Acid?

The active ingredients selected by Elenco make Elenco Sal Acid an effective option not only to control pathogenic bacteria, but also to improve intestinal integrity and restore the acid-base balance of the stomach, thus improving the absorption of certain nutrients such as amino acids, which depend on pH to be absorbed. All this brings a significant improvement in the health of the bird and reduces the economic losses derived from poor digestion of nutrients and veterinary treatments.

Features and Benefits of Elenco Sal Acid

- The blend of organic acids reduce a broad-spectrum of pathogenic bacteria like Salmonella, E. coli, Clostridium, Campylobacter, among others Can be used as an antibiotic alternative, creating an unsuitable
- environment for the proliferation of harmful bacteria, reducing the risk of infections Helps in stress alleviation and robust the immune response Enhance the dietary electrolyte balance (dEB), contributing to increase
- growth and feed efficiency in the animal Improve Average Daily Gain
- (ADG), Feed Conversion Ratio (FCR) and Egg quality and production

Composition

Formic acid
Propionic acid
Sodium Formate

Dosage

Broiler	500 gr/MT of feed
Layer	500 gr / MT of
Breeder	feed 1 Kg / MT of
	feed

Package

25 Kg Bag
