

Elenco Sal Plus

The powerful solution to control Salmonella and Clostridia , reducing gut inflammation and improving the nutrients absorption and gut health

Why use Elenco Sal Plus?

Salmonella and Clostridia are two of the main harmful bacteria that affect poultry production. When they overgrow, they cause severe intestinal inflammation, affecting weight gain and feed conversion. Thanks to the content of Carvacrol, Thymol and yeast cell wall, Elenco Sal Plus is a powerful weapon against these and other pathogens that cause multiple infections and economic losses due to damage to the intestine and the immune system.

Features and Benefits of Elenco Sal Plus

- Gives defense against harmful bacteria like Salmonella and Clostridia fostering a healthier microbial environment
- Reduces intestinal inflammation risks and strengthens the gut integrity
- Improve Average Daily Gain (ADG), Feed Conversion Ratio (FCR) and resistance to gut infections and several diseases
- Increases resilience to stressors agents
- Boosts the anti oxidative status increasing the action of antioxidant enzymes, among them SOD and CAT

Composition

- Mannan Oligosaccharide(*Saccharomyces cerevisiae*)
- Beta glucan(*Saccharomyces cerevisiae*)
- Carvacrol
- Thymol

Dosage

750 gr/MT of feed

Package

25 Kg Bag

+351 920 359 893

Avenida da Liberdade 110, 1269-046, Lisbon, Portugal
