Product Benefits

- Influences on ovomucin, a glycoprotein contained in eggs albumen
- Improves albumen quality by up to 90%
- Increases egg weight by about 4-5%
- Increases calcium absorption by 2%, increasing calcium levels in the shell by 1.5%
- Optimizes intestinal balance for its acidifying and probiotic effect due to VFAs present in sodium salts and butyric acid
- Acts as an intestinal bio-regulator and reduces the prevalence of diarrhea and the number of dirty eggs

Composition

Each 1 Kg of Shell Strong contains:

Vitamin D3	2 millions IU
Vitamin C	25 gr
DL-Methionine (98%)	25 gr
Magnesium oxide (72%)	7 gr
Mono Calcium Phosphate	224 gr
Copper (Copper Sulphate Penta Hydrate)	1250 mg
Selenium (Sodium Selenite)	45 gr
Zinc (Zinc Oxide)	6.75 gr
Zinc (Quelated zinc glycine hydrate)	2.25 gr
Manganese (Manganese Oxide)	12 gr
Manganese (Quelated manganese glycine hydrate)	2 gr
Iron Sulphate	0.50 gr
Iron (Quelated iron glycine hydrate)	0.75 gr
Antioxidant (BHT)	112 mg
Citric acid (99%)	50 gr
Calcium Formate (98%)	50 gr
Calcium Butyrate (98%)	50 gr
Calcium Pidolate (98%)	30 gr
Potassium Chloride (99%)	25 gr
Calcium Chloride (99%)	25 gr
Carrier	Up to 1 Kg

Dosage

200-250gr/MTof feed

Package

25 Kg Bag
